To Our Valued Patients - Rescheduling and No Show Information

We appreciate that it may become necessary to reschedule an appointment. Please understand that this appointment has been reserved specifically for you. In order to accommodate the needs of our patients we ask for two business days' notice in order to change your appointment.

The reason why we ask for 2 business days' notice is because we have a number of patients on our "priority list". They require appointments on short notice as they are suffering or in pain. If we do not receive appropriate notice we cannot schedule them in within the time frame they need. It is very important to our doctors that we see them as quickly as possible. Each person's situation is different and we realize that family, office emergencies, and illness can arise. We will be pleased to discuss the details of short notice appointment changes on an individual basis.

Our doctors and staff look forward to taking care of your oral health needs and welcome you and your family to our team of dental professionals.

Dental Benefits Update

As a service to our patients we will continue to bill your dental benefit plan directly, however, we want to update you with some of the challenges that we are experiencing with a number of insurance companies.

1. Due to the Privacy Act and the fact that the dental office is third party we are often unable to obtain our patients' personal information. If *your* insurance company will not provide our dental office with your benefit information, we encourage you to speak to your carrier regarding the coverage of your plan to avoid any disappointment if there is a decline in payment of treatment.
2. We are finding that dental benefits are changing rapidly with some reductions in your coverage. Unfortunately, Insurance companies do not inform the dental offices of changes to your policy.
3. Often, your dental benefits will not cover the exact percentage of your treatment – for example limits have been reached, lab fees or payments for molar restorations exceed what your plan will allow, a clause in your plan that you are not aware of. We do our best to provide you with an estimate, however, we find that because of information we are unaware of the estimate may not be accurate.
4. I authorize release of personal information, to my benefits plan administrator and CDA, information contained in claims submitted electronically to be payable to the assigned Dentist. This authorization shall continue in effect until the undersigned revokes the same.

Also, please note any treatment that your insurance does not pay or exceeds the limit of your individual plan will be your responsibility and billed directly to you.
